

ELECTRICITY ASSET OWNERSHIP DIVIDEND \$50 CREDIT TO QLD ELECTRICITY USERS AS PLEDGED BY THE QUEENSLAND GOVERNMENT.

METER2CASH Solutions have been working with the Department of Energy & Water Supply (DEWS) to provide electricity users within embedded networks the opportunity to receive the electricity asset ownership dividend as pledged by the Qld Government.

We are glad to announce that you will soon see a dividend payment of \$50 per year (payable over 2 years) credited to your account if you use below 100 megawatt hours of electricity per year.

KEY POINTS FOR EMBEDDED NETWORK USERS:-

- METER2CASH have submitted all dividend claims for our embedded network sites to the Department of Communities (DOCS) for all electricity customers in Queensland.
- DOCS will apply the bulk dividend payment to the embedded network sites via the Bulk Bill for the site ie; 100 Lots at the site x \$50 will reflect a credit \$5,000 on the bulk bill.
- Once the dividend credit is received for the entire site, METER2CASH Solutions will then apply the credit to our customer or users of electricity on the next cycle bill from us.
- We expect that all accounts billed by us should receive the credit between May and September bills.
- A further \$50 credit will be paid in 2019, we have not yet been advised of a date by DEWS that this will be occurring but we will communicate this to you in the future, please keep an eye on the NEWS area of our website www.meter2cashesolutions.com.au/news
- To find out more, please go to [electricity-asset-ownership-dividend](#) on the Queensland Government website, or contact us on the number below.
